問題は、I-AとBの2題です。

放送問題 I-A

今からある問題について3人の意見を聞きます。それぞれの意見をア～ウから1つ選び、記号を○で囲みなさい。

MC: I have a question. Do you agree that people should go into space? What do you think, Ken?

Ken: I've heard that a lot of people have lost their lives on the way to space. I don't understand why we do such dangerous things. Which is more important, life or science? The answer is clear, isn't it?

MC: How about you Amy?

Amy: I think humans hope to find answers to questions they can't answer when they go into space. I think this is important for science and for humans. But we may sometimes die in space. This is a question of life or death. I can't choose.

MC: And you, Joe?

Joe: Some people say that humans must not do dangerous things like going into space. But I don't agree with them. We sometimes have to do dangerous things when we want to go forward.

放送問題 I - B

今から英語のニュースを3つ聞きます。それぞれの内容として正しいものをア～エから1つ選び、記号を○で囲みなさい。

Aloha! Good morning, Hawaii. You are listening to Honolulu News.

1. Our first news story is about the Japanese sumo wrestlers' visit to Honolulu. The Japanese sumo wrestlers arrived in Honolulu on April 18th and they will show their professional sumo skills to people in Honolulu next Sunday, April 24th. On Sunday, the opening ceremony will start at 1:00 and the sumo games will start at 1:30. From 4:00, there is a special event for children. Any children who are under 10 can do sumo with the Japanese sumo wrestlers. If you are tall and strong, maybe you can win. But even if you are short, it's alright. I'm sure everyone will have good fun! If you want to play with sumo wrestlers, please be at the festival at 3:00. Only the first 20 children can join the games. Don't miss this chance!
2. Our second news story is about a whales visit to our area. Two whales were found near Pearl Harbor over the weekend. On Sunday morning, the police got a call from a local woman. Whales don't usually come to the Pearl Harbor area, so their visit was really surprising. The police announced to all the ships in Pearl Harbor that they should stay away from the whales. The police later found out that one of the whales was a mother whale and the other one was her child. The scientists

said the mother whale is looking after her child in the Pearl Harbor area, though whales don't usually stay near the beach. If you are lucky, you may see the two whales in Pearl Harbor. But please keep them safe because whales are disappearing and, of course, these two are a mother and child.

3. Finally, the weather report. It is clear and fine at 8:00 in the morning now. It will be fine all day today but it may be cloudy and windy tonight. The temperature will be 25 degrees in the day time, a little warm. At night, the temperature will be 20 degrees but you may feel a little cooler because of the wind. This week, it may rain for a few hours each day in the afternoon.
